

MERCED RIVER WHITewater RAFTING

April - July*

The Merced river tumbles and twists out of Yosemite Valley, gradually mellowing into a raftable whitewater river just 4 miles below the town of El Portal. It is here that our trips begin. Offering abundant whitewater confined by a narrow corridor, this river is a must for the whitewater enthusiast. Indeed, the Merced river offers one of the best whitewater rafting paddle-boat trips in California. The 11-14 miles of rafting on the Merced is typically class 3 (rated 1-5, with 5 being most challenging) and includes memorable rapids with names like Terminator, Grand Slam and Split Rock! These full and half day trips through our partner, Zephyr Whitewater Expeditions, are typically available April through July and are suitable for first time rafters, and depending on water levels, children over age 7.
